

1st International Geosciences Student Conference

Bucharest, April 22nd – 24th, 2010

Opening Ceremony:

Organized in the New York Amphitheatre of the WTC, will be the event that will start the conference, trying to create the proper psychological environment for a successful meeting.

11th Symposium of Romanian Student Geologists:

Traditional event for Romanian students. Its main goal is to gather Romanian geosciences students from all over the country and offer them the chance to compete with oral scientific presentations for the three sets of awards, one for each thematic section. The presentation have always been made in Romanian, this being a tradition that we don't intend to change.

1st International Geosciences Student Symposium:

An event attached to the previous, with similar goals, the difference being the target group, in this case being any students interesting in competing at international level, with oral and poster presentation made in English.

1st International Geosciences Job Fair:

Three days event that will take place in the Plaza Room of the WTC conference centre and will consist of a fair where companies will present to students their field, structure, technology and opportunities as an employee. The exhibition room will be organized in booths, each company owning one, according with the financing package chosen. There will be some booths available for real or trial interviews where specialists of companies will investigate the resource that the participant students are representing.

Short Courses and Lectures:

Held by highly qualified distinguished guests. Three of these programs will be organized and they will be offered by the three partner societies: SEG, AAPG and respectively EAGE.

SEG/ExxonMobil Student Education Program:

Two days training course in petroleum exploration realized by professional trainers from Exxon Mobile. The event will take place during 20th – 21st of April and will offer travel grants for students all around Europe to be able to attend the program and the IGSC.

Challenge Bowl Regional Competition:

Program offered by the SEG Foundation and organized by Peter Duncan. The event consists of an international quiz with questions from all the fields of geology (petrology, sedimentology, stratigraphy, geophysics, structural geology, petroleum geology, etc.). The winning team will receive a travel grant to attend the big final of the contest which will be organized in Denver, USA, during the SEG Annual Meeting in 2010.

Field Trips:

A one or two days field application on the Prahova Valley and in the Carpathian Mountains, with opportunities for visiting grate geological phenomenon's and outcrops, with guidance from professors of the University of Bucharest.

Ice Breaker Party and Final Gala:

Fun and relaxing networking events where the industry representatives and students will get in contact in a different environment than in the case of the job fair.

Closing Ceremony:

Organized in the New York Amphitheatre of the WTC, will gather opinions and impressions of the organizers, partners and VIP's and also will be the event for the awards: for the best papers in the Romanian and the International Symposiums, the Hope Award, the Challenge Bowl winners and other awards.
